

**HARLEY HANSON**, Washington Island fish boil master, was being photographed by Life when the Advocate camera ducked in behind to take advantage of the pro's set-up. Harley has a record of all the boils he has supervised. The gal in the background is famous aviatrix Jerrie Cobb. Harley is a pilot himself, having flown C-47's over the Himalayas (the "hump") in the CBI theater in World War II. He has never flown off the Island field.

1966 - Harley Hanson (Marcia Carr's father) popular mail carrier who often served as boil master at the Fly In Fish Boil
